

Geotextiles used for Pond Stabilization

Springfield Plastics, Inc. stocks Amoco 4598 Geotextile Fabric. This is a tough durable non-woven fabric which works great in the demanding construction market. The fabric shown here is being used for pond bank stabilization. The fabric weighs 4 oz. per square yard and is ultraviolet light stabilized. It comes in rolls of 12.5' and 15' widths by 360' and 300' lengths, respectively.
